姓名: 邱道明

城市: 北京

电话: (86)13910766978

邮件: qdaoming@aliyun.com

学历: 计算机科学硕士

经验: 十年以上工作经验

证书: 系统分析师

自我简介

熟悉 C/C++/Java/Python/JavaScript 等编程语言，熟悉大模型企业场景应用开发以及深度学习技术，熟悉 Linux/Windows/嵌入式等操作系统，熟悉服务器微架构和常见云原生技术栈，熟悉虚拟机技术，熟悉软件性能优化，具有很强的团队精神，成功完成了众多项目

工作经历

2023.06—现在　Fabarta 北京有限公司，AI 算法专家/项目负责人

开发和部署了开源和闭源大模型在企业场景下的多个关键应用，包括：

- 某大型制造业人力问答及微调项目
- 某大型商业银行合规知识图谱问答项目
- 设计和实现飞书知识库对话机器人 RAG 应用，涵盖文档和代码库等数据及关系
- 某制造业企业设备维修数字人项目
- 某大型央企办公场景和化工助手 Agent 应用
- 某重工业国企智能问数项目

2013.05—2023.04　Intel 中国有限公司系统软件部, 云技术负责人

为 Intel 服务器平台优化 node.js 及 V8 虚拟机软件，通过多种优化技术取得了基于 docker container 的 node.js 典型服务器应用+50%的吞吐量提升, 并在 node.js 和 v8 开源社区贡献了多次代码提交，获得多次全球部门奖。

带领团队开发 Java 虚拟机软件栈并部署到海量 Intel 平台固件中, 达到了很高的质量要求。

2005.02—2013.05　Oracle(原 SUN)北京研发中心 Java 工程服务部, 技术负责人

带领项目团队开发并集成 JavaME 虚拟机软件栈到客户厂商的手机、电视机顶盒和家庭网关等设备中，完成的许多项目得到大量的产品化并获得客户很好的评价。

2004.08—2005.02 Thomson 北京宽带研发中心, 高级软件工程师

开发适合于中国有线电视的数字电视机顶盒产品,主要负责基于 ST OS20 平台的 EPG(电子节目指南)和 NVOD(视频点播)应用软件的开发。

2001.09—2004.08 Opentv 北京代表处，高级软件工程师

作为项目的主要成员成功地为中国中央电视台，澳大利亚 Foxtel 等广播运营商实现了多个重要的基于 Opentv 媒体技术的领先交互式数字电视应用。

2000.07—2001.09 Cienet 北京分公司, 软件工程师

为马来西亚电信公司的大型多层的电信网络差错管理系统提供技术支持服务,为中国重要的电信客户定制宽带计费软件系统。

教育背景

2018.09—2023.05 美国佐治亚理工学院计算机学院计算机科学专业(在线/非全日制) 硕士

1993.09—2000.07 北京大学计算机科学技术系软件专业 本科, 硕士

论文专利

一种基于大语言模型的数据库联合查询方法、装置和设备 – 专利 2023, 中国

Office Online PWA Workload and Its Performance Analysis – DTTC2021, 美国

Embedded System Application Installation and Execution Method and Apparatus - 专利 2020, 美国

Embedded Java Technology for Digital Entertainment - CCBN2011, 北京

Develop MSA Applications on Real Device – JavaOne2008, 美国

Advanced MIDP Compliant UI touch support – Research Disclosure 2007, 美国

Name: Daoming Qiu
City: Beijing
Phone: (+86)13910766978
Email: qdaoming@aliyun.com
Degree: Master of computer science
Work Experience: 10+ years
Certificate: System Analyst

Self Introduction

Be familiar with C/C++/Java/Javascript/Python language, be familiar with LLM RAG and Agent application development and LLM finetune, be familiar with Linux and embedded operating system, be familiar with server micro architecture and popular stack, be familiar with cloud software performance optimization, be familiar with virtual machine technology, be conscientious and responsible, and led many projects with successful delivery

Work Experience

2023.06—Now Fabarta Beijing Co.Ltd, AI Algorithm Expert/Project Leader

Develop LLM applications to utilize open source or OpenAI LLM for business scenario:

- HR chatbot and LLM finetune for a large manufacturer
- Compliance Knowledge Graph Chatbot for a large commercial bank
- Design and implement RAG Chatbot for ByteDance Feishu knowledge base and git repo
- Device maintenance digital human for a large manufacturer
- Agents for office scenario and chemical assistants in a large central enterprise
- Intelligent SQL agent for a heavy industry state-owned enterprise

2013.05—2023.04 Intel China Ltd. System Software Dept., Cloud Project Leader

Optimize Node.js runtime and V8 JS virtual machine for server platform and get 50% performance increase for related server docker container workload on Intel Xeon platform (~30% on AWS Graviton3 ARM64 platform). Landed several commits in node.js and v8 open source code repo.

Lead project engineers to develop and deploy customized Java virtual machine software stack into millions of Intel platform firmware, which meets very strict quality/security requirements.

Won several global department awards.

2005.02—2013.05 Oracle(formally SUN ERI) Beijing R&D Center, Technical Leader

Lead project engineers to port and integrate JavaME virtual machine software stack into kinds of customer embedded devices, including mobile phone device, set top box, home gateway etc. Successfully deliver and productize many projects and get high customer satisfaction.

2004.08—2005.02 Thomson BAP R&D Beijing Co. Ltd, Senior Software Engineer

Be responsible for EPG (Electronic Program Guide) and NVOD (Near Video On Demand) iTV application development on ST OS20 platform.

2001.09—2004.08 Opentv Beijing Office, Senior Software Engineer

Be responsible for Interactive Digital TV application development with Opentv SDK. Successfully deliver several leading iTV sports applications for CCTV, Australia Foxtel, etc.

2000.07—2001.09 Cienet Beijing Co. Ltd, software engineer

Support network error management system (Tuxedo + Oracle + HP Unix) for Malaysia Telecom. Customize Billing system for important chinese customers.

Education

2018.09—2023.05 M.S, Computer science (Online/Partime), Georgia Institute of Technology

1993.09—2000.07 B.S & M.S, Computer Science, Peking University

Publications & Patents

LLM based database joint query method and apparatus – Patent 2023, China

Office Online PWA Workload and Its Performance Analysis – DTTC2021, USA

Embedded System Application Installation and Execution Method and Apparatus – Patent 2020, USA

Embedded Java Technology for Digital Entertainment – CCBN2011, Beijing

Develop MSA Applications on Real Device – JavaOne2008, USA

Advanced MIDP Compliant UI touch support – Research Disclosure2007, USA
